State Park Nearing Reality in Wasatch

Special to The Tribune

HEBER — Wasatch Mountain State Park took a step nearer reality with the signing of options by three Midway citizens who owned property on the proposed park site. Options securing 2,400 acres of hill ground, wooded areas, pasture and farm lands were signed by Alma, Joseph and Nephli Huber, owners of land first homesteaded in 1863.

OPTIONS ON ACREAGE owned by Karl, Vern, Eugene Bernard and Clarence Probst still remain to be signed. It signed it will complete transactions for the land. And, as the project moves ahead, plans for a Swiss-type village are being made for Mill Flat.

H. Clay Cummings, representative of the State Parks Commission, is in charge of the transactions.
